## VITOL KS / KN

Special water-based dielectric fluids for EDM drilling machines.

- VITOL KS is indicated for the processing of non-ferrous metals and their alloys
- VITOL KN is indicated for the machining of steel, tungsten carbide and sintered materials
- It is recommended not to mix the two fluids with each other or with other products not to deteriorate the performance
- Supplied in 100 lt drums or in 25 lt cans

Product	Viscosity at 40 C° (m <sup>2</sup> / s)	pH (at 25 C°)	Relative density at 15 C°
VITOL KS	0,925	7,6	1,011
VITOL KN	0,750	8,0	1,010
